The XBox 360 is Here! Did the DoD Play a Role?

Description

A while back I blogged on some history of <u>training development I worked on in the Navy</u> with the Battle Force Tactical Trainer (BFTT) project, begun by Capt. Herb Kahler in the early 90s....

Does the new <u>XBox 360</u> owe a tip of the hat to a bunch of war fighters and federal tax doallars for it's development? hmmm...consider how your tax dollars keep giving and giving....
