Better Than An EasyBake Oven!

Description

Desktop Factory Printer Prototype
Desktop Factory Printer

About 90 lbs, and it can create 3D objects up to 5?x5?x5?, with the specs fed in from your CAD/CAM program. Just advanced bubblejet like printing technology. Layers are .01? per pass.

Got about \$5000 you don't need more than small parts fro your car, your home, or stuff just for fun?
