

Stop the Murdoch (Flt 93) Memorial Blogburst: Joementum!

Description

Alec Rawls did a 45 minute interview with Washington D.C talk-radio host Joe Ardingner Saturday night ([3-8-08, Segment 3](#)).

“It rips,” says Alec. “We exposed a lot of the terrorist memorializing parts of the Flight 93 Memorial, and went over the clear proofs of intent that architect Paul Murdoch included in the design.”

Joe’s [interests](#): “Ghosts, UFO’s, The Lizard People from The Hollow Earth, Politics, True Crime, Conspiracies, you get the idea...” If he wants outlandish, the truth about the Flight 93 Memorial is tops, which could just make Joe the man for the Job.

Alec knows nothing about the Lizard People, or Joe’s politics, but this issue ought to transcend all domestic divides, and for Joe it certainly does. “Very fun interview,” says Alec: “Joe is a great host, and he says he wants to keep after this.”

That’s excellent. Thank you Joamericans!
