

Technology Tuesday

Description

or...maybe better titled "Fallout of Technology Tuesday."

From [Engadget](#):

Compulsive e-mailing, texting could be classified as bona fide illness

Posted Mar 17th 2008 8:11PM by Darren Murph

Filed under: Cellphones, Handhelds

Considering the plethora of facilities that have opened just in the past few years to deal solely with individuals that have become undoubtedly addicted to video games, the internet and all things Hello Kitty (we jest, we jest), we're not surprised one iota to hear that uncontrollably texting / e-mailing could soon become "classified as an official brain illness."
[...]

Watch your usage....before your freinds and family show up for an "intervention."
