### Description

He said what? Here’s why:

After effects of the [Toby Keith concert](#): Wrote this country music song while driving around in my humvee. Maybe later I’ll work out the guitar part and record.

He already “wrote” the words for [one song](#), which a group, 3db Down, used the words from one of his posts of his for his prior trip to the sandbox (2005).

I think he may have a career planned for retirement!
