

10 Years Ago (Cont)

## Description

I wrote [the post](#) in Oct, about the time the [ValOUR-IT](#) fund drive was kicking in and I hadn't figured out how to pull video off a DVD that was made from a video tape of the event.

Now, I have successfully managed to import and edit a clip out of the movie, showing the Virginia State Freefall Formation record jump.

Bonus points if you can find me in the camera frame.
